The NEW Survey Process – Preparing Your Team for Success!

The goal of the new survey process is to improve the effectiveness of annual nursing home surveys by combining the traditional and QIS survey protocols. The hope is that improvements will be seen at the population level to reduce adverse events and preventable healthcare acquired conditions and improve care.

This class will offer participants the knowledge needed to prepare and succeed under the new survey guidelines which will go into effect on November 28, 2017, with the new Requirements of Participation for Phase 2.

Objectives:
1. Understand the new interpretive guidance for standard surveys and investigations that will take affect 11/28/17
2. Identify the process by which the survey teams will conduct the new standard survey process in skilled nursing facilities
3. Learn how to provide direction to the facility interdisciplinary team on survey readiness under the new protocols
4. Receive leadership strategies to implement improvements at the organization level for positive survey outcomes
