

AADNS QAPI Certified Professional (QCP) Prep Workshop

Become a QAPI Expert

An effective QAPI process and program will take you beyond compliance and enable your facility to truly transform the care you provide residents. Increase your knowledge by attending a two-day QAPI education workshop that will help you prepare for the comprehensive QCP certification exam.

To implement quality assurance and process improvement (QAPI) strategies in long-term care effectively, you need strong nurse leadership. To achieve that leadership, follow the QAPI principles taught in this course to help you fulfill your mission to provide the best possible care and quality of life for your resident.

Your QAPI certification--

- Proves your expertise to implement the scientific QAPI process
- Inspires your team to be involved in the QAPI program
- Shows you're a leader in your facility by investing in your QAPI knowledge
- Keeps you marketable in the competitive long-term care nursing field

Workshops are taught by individuals who go through rigorous requirements to become Master Teachers and who are experts in the field.

The workshop covers content from the QAPI courses for skilled nursing facilities:

- Design and Scope
- Governance and Leadership
- Feedback, Data Systems, and Monitoring
- Performance Improvement Projects
- Systematic Analysis and Systemic Action

Note: The QCP certification exam is sold separately for \$99 (member)/\$198(non-member). Upon purchase, you will have access to the examination in the online Classroom.

Who should enroll?

- Directors of Nursing Services
- QAPI Managers
- Nursing Home Administrators
- Nurse Managers
- RNs and LPNs
- Social Service Directors
- Activities Directors
- Staff Development Directors
