

## The Basics of QIS (Quality Indicator Survey)

The QIS survey process is a significant change from the current process and it could take months to get up-to-speed with the new process. *It is time to begin preparing for this "NEW" survey process.*

The basic Quality Indicator Survey (QIS) training includes a general orientation and introduction to the QIS process as well as a comparison of the QIS with the traditional survey process. The training provides instruction on the use of CMS QIS forms and procedures for Stage I, Facility Tasks, and Stage II Investigation. In addition, guidance will be provided on how the QIS forms and procedures can be used by nursing facilities in their ongoing quality assurance efforts. This program is appropriate for ANYONE working in a nursing facility.

### Participants completing this program will be able to:

1. Compare the traditional survey process to that of the QIS process,
2. Utilize the CMS QIS forms and procedures for Stage I of the QIS process,
3. Utilize the CMS QIS forms and procedures for Facility Tasks of the QIS process,
4. Utilize the CMS QIS forms and procedures for Stage II of the QIS process, and
5. Utilize the CMS QIS forms and procedures in the nursing facility's quality assurance program.
